DETAILED ACTION

Response to Amendment

1. This action is responsive to communications: Amendment filed on 5/13/04.
Claims 1, 12, 16, and 21 are independent claims. Claims 1, 12, 16, and 21 were amended.

Allowable Subject Matter

2. Claims 1-21 are allowed.
3. The following is an examiner's statement of reasons for allowance.

The present invention is directed to a system and user interface supporting navigation and processing in a processing system such as a PC, server, networking device, or other device.

Claims 1, 12, 16, and 21 recite a system that provides overlaid tabbed application windows each including a visible tab indicating a particular subtask sequence of subtasks that are specifically ordered to perform a particular process involving user interaction with web pages associated with corresponding subtasks and wherein visible tabs and corresponding overlaid tabbed windows are *specifically ordered to perform a particular process involving user interaction with web pages associated with corresponding subtasks*.

Prior art of record fails to teach the combination elements included in the claims, the tabs and web page windows of Bertram are not sequentially ordered in accordance with said sequence of subtasks; the tabs and tabbed web page windows of Bertram are not specifically ordered to perform a particular process involving user interaction with web pages associated with corresponding subtasks. The closest prior art, Bertram et al. (US 6,049,812) shows a substantially similar system that employs overlaid tabbed web page windows. However, the

combination of sequentially and specifically ordered tabs and tabbed web page windows is not fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
